## GAG'S Approach

GAG aspires to be at the forefront of transitioning to a more equitable, inclusive, and low-carbon future. Our Strategic Action Plan is built on a strong commitment to sustainability and ESG issues, both in our operations and our work for our clients.

We are proud to know that our Innovation & Technology IT, GAG Engineering/Support, and advisory services are sustainable and resilient, which leads us to achieve our clients' satisfaction and ensure they are achieving their business goals.

## GAG'S VISION

To become a leading and prestigious company in manufacturing and supplying Industrial & Medical gases across local and regional levels in the Arab Gulf and the Middle East, with strict and high safety and quality standards, and to achieve excellence in all aspects of our work and be the preferred choice for clients and partners in our industry.

## GAG'S MISSION

To strive and deliver added value to our clients effectively contributing to achieving their goals and targeting their satisfaction, this is achieved by leveraging our deep understanding of the local environment and harnessing the expertise and capabilities of our experienced and qualified staff.

## ABOUT US

As a progression and continuation of GAG founders' extensive experience in the field of Industrial & Medical Gases, since then, the company has been operating at a fast pace, excelling in its work, GAG specializes in Industrial & Medical Gases in Kingdom of Saudi Arabia, which has earned a great reputation and extensive expertise in this field, and seeks to expand in Arab Gulf and the Middle East market.

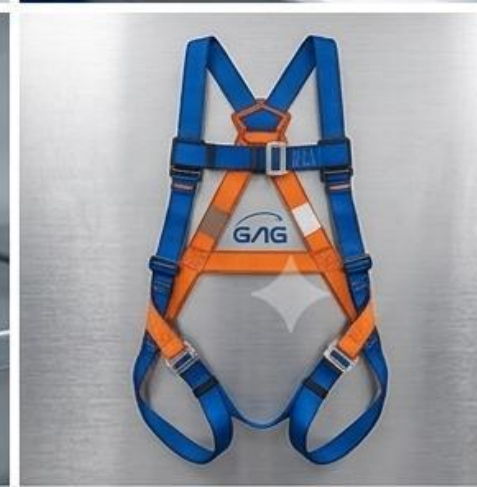

## GAG'S VALUES

GAG is governed by a set of values that believes will fulfill its mission and achieve its vision for the future and become one of the basic pillars of our work and that have made GAG an entity that deals with its customers with confidence.

## Safety & Well-Being

Our first purpose is to ensure safety. We always ensure that we implement and adhere to the highest degree of safety for our people, places, and products to provide the greatest environment for our employees, customers, and suppliers.

## Integrity & Commitment

We are devoted to the long-term growth of all of our operations, processes, and activities, and we invest time and resources to continually improve, striving to implement the finest social-environmental and ethical principles.

We are dedicated to behaving with integrity at all costs. It is the essence of our Code of Business Integrity, and it supports all we do and says at Gulf Air.

A man wearing a yellow hard hat, safety glasses, a white respirator mask with a red circular filter, a high-visibility yellow safety vest over a black and white checkered shirt, and orange work gloves. He has his arms crossed and is standing in front of a blue and grey industrial wall. To his right are three blue gas cylinders with black valves.

## Community & Responsibility

At Gulf Air, we take care of our community and ensure that to have the best quality of life for our people by creating unique and sustainable growth for our employees and customers.

We are helping the community to grow rapidly by expanding our business to provide more jobs and strengthen the industrial and healthcare sectors by utilizing the resources efficiently through the latest technologies and innovation.

## Quality & Efficiency

We are committed to continuously improving our performance, delivering high-quality products, and maintaining strong relationships with our stakeholders by upholding these standards. We strive to build a reputation as a trusted and reliable company in the gas sector.

## Innovation & Technology

We see innovation and modern technology as integral parts of our approach, we aim to adopt new technologies and tools to improve our operations, increase efficiency, and enhance quality, we strive to leverage modern technologies, methods, and scientific approaches to stay at the forefront of industry advancements.

## Society & Sustainability

As we keep growing every day, it become one of our principles to continue moving friendly to the environment by having a sustainable business at every stage of our products and services which reflects our concern towards the environment, community, and economy.

## Sustainability Development Goals

Whether we are delivering high-purity gases, installing/Maintenance Special Equipment or Pipeline Installation, we are dedicated to finding sustainable solutions and answers to the challenges the future will bring.

## Sustainability Journey

GAG 2030 builds on our Group founder's 5Ps philosophy (People, Planet, Prosperity, Product, and Partnerships), ensuring that what we do must be beneficial to all aspects of these elements. This approach ultimately leads to profitability for the company.

# GAG Engineering

GAG has developed field-proven best practices to successfully deploy projects using a variety of delivery techniques. Our teams take creative techniques that use cutting-edge technology to generate value for our clients, while also adopting sound and efficient procedures in a collaborative atmosphere. Compliance and assurance are our top priorities throughout the project lifecycle, and we take satisfaction in delivering solutions that completely satisfy our clients.

## Smart Growth

To best serve you, our team will provide optimum and comprehensive solutions to improve operational performance while lowering energy usage and carbon emissions. From industrial, medical, and specialty gases to metal fabrication, concrete, steel, and wood products, to the initial design stage up to the optional stage, and everything else in between, our team has built solid expertise in all phases of process design, from the initial stages of the project up to operations and the optimization stage.

## Waste Management

GAG knows the importance of Waste Management WM activities, we implement the best waste minimization programs to save resources and implement best practices to achieve the target, by using several approaches such as (Cradle to Cradle), (Pre-Consumer), and (Post-Consumer-ISO14021).

# OUR CORE PRODUCTS OF GASES

## Healthcare Sector

The healthcare sector is in a period of reshaping, with new challenges emerging thanks to increased digitalization, artificial intelligence, and other disruptive forces. We provide pharmaceutical and biotechnology clients with a one-stop solution for exemplary critical gases and cryogens that sustain daily operations that will create long-term value.

## Industrial Sector

Whether in oil refinery operations, industrial processing, glass and plastic production, metal fabrication, food and beverage, water treatment, healthcare, or medicine. Modern industrial and medical gas supply technologies allow us to store, distribute, and use compressed and liquefied air as well as chemical gases in an efficient and environmentally friendly manner.

## Maintenance & Services

GAG plays a leading role in the development and growth of advanced gas and piping management practices across the Kingdom of Saudi Arabia and all its associated works.

### Services:

- **Technical Support**
- **Cylinders Maintenance**
- **On-Site Equipment Maintenance**
- **On-Site Special Equipment Installation**
- **Fire Fighting Installation System + Maintenance Contracts**
- **Pipeline Installation**
- **Bulk Installation**

## Advisory Services

GAG's advisor team is here to help and guide clients on the journey from conceptual development to commissioning and handing over the project, which includes all stages of a project.

Our advisory department is under the control of a professional Engineering Team using the latest solutions and technologies.

## Gulf Air Full of Care

GAG applies future-ready insights based on a solid foundation in Gas manufacturing & supplying and services delivery to clients of varying sizes to assist our customers in making smarter infrastructure decisions, proactively managing risks, and achieving strategic business goals.

Our trusted experts are united by one objective to have a positive, long-term effect on the communities we serve by fostering an innovative, integrity-driven, and inclusive culture.
